### Masjid Announcement 12 Nov 2021

Today, mosques all over the country are reminding people about our Uyghur brothers and sisters who are suffering in Chinese concentration camps. The British Muslim community is coming together for the Stand4Uyghurs campaign to channel people towards effective action for the Uyghurs.

The launch of this campaign was a demonstration of solidarity on 1st July outside the Chinese embassy in London, and as a result there were shockwaves around the world alhamdulillah. Our Uyghur brothers and sisters said that after 5 years the Chinese authorities opened the mosques and forced people to go into them for Eid al-Adha, with journalists to produce counter-propaganda.

The Chinese communist party does not care much when western politicians or rights groups speak against them, but they are VERY sensitive to the mood of the Muslim Ummah turning against them and speaking up for their Uyghur brothers and sisters. Therefore, we want to do another display of solidarity which is EVEN BIGGER now, in London AND Manchester, tomorrow inshaAllah. You can visit **Stand4Uyghurs.com** to sign up and collect a free tshirt when you attend inshaAllah.

One of the most poisonous whispers of Shaytan is when he comes to suffering Muslims and tells them that the Ummah has forgotten them. Many criticise those who do not do enough for our Uyghur brothers and sisters - well this is our opportunity to spend just a few hours to exercise our freedom to speak out and stand in solidarity and give moral support to our Uyghur brothers and sisters, as well as publicly condemning an evil with our tongues, as per the Prophet's instruction.
